

EngineCheckUp Marine 2 Test Kit

Tested and Approved by TÜV, an independent German Testing Authority

Award Winning and Patented Radial Planer Chromatography Technology
Immediate Results for Maximum Performance
All 4 Stroke Diesel and Petrol (Gasoline) Engines

A simple analysis of one drop of oil will determine the type and degree of contamination present in your engine. Identify problems before they become major repairs. Minimize downtime and reduce repair costs. Each test will analyze the range of contaminants in your engine, including Dirt/Grime, Carbon/Oxide, Water, Glycol and Fuel.

Ideal for “Before and After” Analysis

Market:

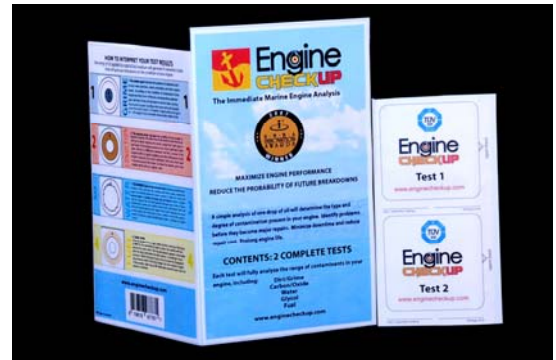

- Boat owners, surveyors, mechanics and brokers
- Inboard/Outboard engines and generators

Contents:

- Two complete engine tests
- Informational folder with instructions and reference pictures
- Moisture proof storage bag
