

EngineCheckUp Inspection Package

Complete Engine and Multi-Fluid Analysis for Six Vehicles
Tested and Approved by TÜV, an Independent German Testing Authority

Award Winning and Patented Radial Planer Chromatography Technology
Immediate Results for Maximum Performance
All 4 Stroke Diesel and Petrol (Gasoline) Engines

Engine Analysis identifies contaminants: Dirt and Grime, Carbon, Water, Glycol, Fuel
Test works anytime, anywhere with one drop of oil

Multi-Fluid Analysis identifies the condition of the Brake, Transmission, Power Steering and Differential Fluid with one drop
Fast, simple & economical diagnostic tool.

Inspection Package Product Components:

▶ Engine Analysis:

A simple analysis of one drop of oil will determine the type and degree of contamination present in your engine. Identify problems before they become major repairs. Minimize downtime and reduce repair costs.

▶ EngineCheckUp Multi-Fluid Analysis:

One drop of brake, transmission, power steering or differential fluid on the patented test medium will reveal good, change or overdue results.

Market:

- Fleet Operators, Installers
- Used Car Organizations, Construction Operators
- Warranty and Inspection Entities

Contents:

- Six complete engine tests
- 36 Multi-fluid tests
- Informational folder with instructions and reference pictures
- Rugged water proof storage bag.

Marketing:

- Sail Magazine “Freeman K. Pittman” Innovation Award (2008)
- NMMA “Innovative Product of the Year” (2007)
- Professional Tool and Equipment Innovation Award
- Public Relations: Martin Flory Group
