

# EngineCheckUp Marine 6 Test Package

Tested and Approved by TÜV, an independent German Testing Authority

**Award Winning and Patented Radial Planer Chromatography Technology**  
**Immediate Results for Maximum Performance**  
**All 4 Stroke Diesel and Petrol (Gasoline) Engines**

A simple analysis of one drop of oil will determine the type and degree of contamination present in your engine. Identify problems before they become major repairs. Minimize downtime and reduce repair costs. Each test will analyze the range of contaminants in your engine, including Dirt/Grime, Carbon/Oxide, Water, Glycol and Fuel.
